4. The following clause H.34 CONTRACTOR USE OF GOVERNMENT PROPERTY is inserted in Section H and is in full force and effect.

H.34 CONTRACTOR USE OF GOVERNMENT PROPERTY (APR 2006)

In accordance with the provisions of the clause in Section I, FAR 52.245-9 entitled Use and Charges, this clause sets forth the authorization under which the Contractor may utilize the Government-furnished equipment and buildings associated with this contract for commercial activities.

a) Non-interference with Government Work

The Contractor recognizes that the primary objective of Contract DE-AC05-06OR23100 is the performance of work in support of DOE, as detailed in the Performance Work Statement. The Contractor further recognizes that the use of Government-furnished equipment and buildings for commercial purposes is a privilege extended by DOE. The Contractor’s commercial activities utilizing the Government-furnished equipment and buildings must be compatible with existing or planned Government activities and must not interfere with the Contractor’s performance of work under Contract DE-AC05-06OR23100.

The Government shall have the right to suspend its approval for contractor use of Government-furnished equipment and buildings, or to withdraw its approval, at any time. The Government will provide reasonable advance written notice to the Contractor, if practicable.

b) Unavailability of Government-furnished Equipment and Buildings

The unavailability to the Contractor of said Government-furnished equipment and buildings for commercial purposes for any reason, including, but not limited to, action by the Contracting Officer, shall not constitute a breach of this agreement and no claims for damages or reimbursement of costs of any nature, relating to the unavailability of said machinery and equipment, shall be considered under this contract. In the event of said unavailability of equipment and buildings, the Contractor shall continue performance in accordance with the requirements of this contract.

c) Covered Equipment and Buildings

The Government property authorized for contractor use in performing commercial activities includes all Government-furnished buildings, equipment and other property located within the ORISE facilities, including, without limitation, desks, chairs, office equipment, and computers, and associated software and business systems. The use of Government-furnished buildings carries with it the incidental use of associated utilities, such as telephone, electrical, and water service.

d) Reimbursement Method

With respect to Contract DE-AC05-06OR23100, it is in the Government's best interest to make available to the Contractor Government-furnished property for commercial work subject
to a rental charge as described below. In reaching this conclusion, the savings to the Government related to providing such property were considered.

The Contractor, a non-profit educational institution, shall reimburse the Government by offset or direct payment for commercial activities of the Contractor utilizing ORISE resources through the application of its approved indirect cost structure that is common to both corporate and Government projects. Costs not directly associated with specific ORISE or Corporate projects or cost objectives, but common to both, will be collected in indirect cost pools and distributed in like manner to both corporate and ORISE projects. The Contractor will pay its calculated share, thereby reducing the cost to the Government of ORISE operations. Through the application of this reimbursement method, the Government receives a benefit, savings through indirect cost sharing. By charging no additional rental use, the Government encourages the Contractor to increase its corporate work which will increase the Government savings through its pro-rata share of indirect costs. Should the Contractor’s anticipated use of Government property for corporate activities exceed 10 percent measured on a labor hour basis, the Contractor shall notify the Government and the charge for use of Government equipment and buildings shall be reconsidered.

e) Personnel costs

All direct labor and related benefit costs associated with commercial activities of personnel normally dedicated to the ORISE contract shall be direct charged to the Contractor corporate labor accounts for all periods of time when the said employees are engaged in commercial activities.

f) Indemnification of the Government

The Contractor shall indemnify and hold harmless the Government and DOE, their officers, agents, servants, and employees against liability and claims of any kind (including costs and expenses incurred) arising by reason of or incident to the use by the Contractor of Government equipment and buildings for commercial activities, other than in the performance of work under Contract DE-AC05-06OR23100.

**Contractor’s Statement of Release**

In consideration of the modification agreed to herein as a complete equitable adjustment, the Contractor hereby releases the Government from any and all liability under this contract for further equitable adjustments attributable to changes implemented as a result of this modification. There is no increase or decrease in the estimated cost of, or the time required for performance of any part of the work under this contract.

All other terms and conditions remain unchanged.
