**Discussion**

- The expectations appear to be that sites have to go beyond current requirements in the screening of hazards. Sites are being evaluated against past findings at DOE sites.
- The following were provided as potential topics for the Hazards Assessment Subcommittee Meeting at the EMI SIG Meeting:
  - Meteorological Conditions (Wayne/Robert Gee)
  - Malevolent Acts
  - Uranium Oxide ERPGs

**Happenings Across Complex**

Savannah River:

- Organizational changes are occurring. Davey Matthews has taken a position at Bechtel Nevada

Bechtel Nevada

- Hazards Assessments are being standardized.

Pantex

- Corrective action items are being prepared in response to the recent OA assessment at the site.

### Other Sites

Nothing new to report.
