Welcome

Chuck Fauerbach welcomed 9 participants.

Action Items

- Chief Fauerbach needs a headcount of those going on the "custom" NTS tour designed for WG members. The regular tour has grown to approximately 84 people and will require 2 large busses. Those who wish to attend this custom tour and have NOT submitted paperwork for the NTS tour are urged to do so immediately and to note on the form sent by D. Matthews that they are a WG member. Those who have already submitted the documentation for this tour do not need to send anything further.
- Dennis Urban agreed to make the changes discussed to the meeting agenda send various items as requested to WG members. Several presenters are have still not submitted copies of their presentation summary, the presentation itself, and biographical information to Dorothy Cohen. Several of these informational items are in the approval stage at their respective sites. Dennis will track what is needed and from whom. COB Friday, April 23 has been designated as the final submission date. Dennis agreed to contact participants for whom information is still lacking. Follow-up contacts will be made on Monday, April 26.

Workshop Agenda for May 3, 2010

- The participants finalized the workshop agenda. A few minor changes were made. This schedule goes to press today but planners reserve the flexibility to alter the agenda information up until the time of the workshop. The WG SharePoint site will have a current
