#### **May 2012 Action Items Update**

- Of the new members, about ½ have signed up and are ready to go with SharePoint. The remaining individuals will be contacted again to complete registration.
- No update on meeting with Dorothy about merge of 2 conferences (EMI SIG / Fire Protection).

#### **Open Discussion**

This was a leadership update meeting. We confirmed the 7 task groups as BNA, EMS, Fire, Hazmat, ICS, Radcon, and Tech Rescue 1670.

A training discussion led to several questions. Training similarities among sites exist – we need to capitalize on them. Look at doing an identification of training courses and attempt to standardize qualifications. Task books? Qual cards? Tracking systems? What technology could handle (or be configured) roles for mutual aid?

A separate thought for the 2013 Annual Meeting was that the FFRSC could add a multi-piece blue-card certification training which had an online portion (pre-annual meeting) and then a course test during the annual meeting. Details will be looked at during a future group meeting and the possibility of using Ted Nee from Sandia National Lab is still only tentative.

Lastly, we identified the agenda items for the July 26<sup>th</sup> call.
