Welcome

Jim "JD" Daniels, Jeff Leifel, Steve Lockett, and Gary Winner were introduced, and JD welcomed the large turnout for TECHWG's first conference call.

TECHWG White Paper

JD reviewed the work group proposal submitted last year to highlight the need for a formal forum to facilitate technology-related collaboration and information sharing. This white paper was sent to all members prior to the call and is available on our TECHWG SharePoint site.

Technology Working Group (TECHWG)

TECHWG Focus and Direction

Initial direction will be based on feedback provided by members. Jeff and JD outlined the need to collect ideas from the DOE complex members and requested one key issue from each member. The issue is to be technology-based and related to emergency management at each organization. This information will be used to develop the group charter as well as the EMI SIG Annual Meeting agenda in Las Vegas.

TECHWG will meet on Tuesday, May 4, from 5:00 p.m. until 6:30 p.m. at the EMI SIG Annual Meeting. The room size and meeting duration depends on the number of attendees so please send your RSVPs to Jeff promptly so meeting logistics may be arranged.

Members of the group include DOE/NNSA, M&O Contractors and/or sponsored subcontractors.

TECHWG Next Steps

Jeff will distribute meeting highlights and a Web Collaboration Agreement form for SharePoint access ASAP.

Members will send Jeff an e-mail with key issues—please mention site-specific or organization-wide to show depth of issue—and an EMI SIG meeting RSVP.

Wrap-up

Next teleconference is scheduled for **April 14, 2010**, Noon to 1:00 p.m. EST.

Meeting adjourned at 12:28 p.m. EST.
