

Name and State:

You are going on a STEM adventure across the country! Use this worksheet to show your trip. **First**, choose one STEM topic to explore. You can pick something like science labs, biomes, smart cities, or cool buildings and bridges. **At each stop**, write a few sentences about what you see. Then, draw a picture to show what it looks like. Also, tell how this STEM place or idea helps people or our country. Use the lines to write and the boxes to draw. Have fun and be creative!
